TARASTONE *New Collection 2025*

At first Davari's stone holding in the form of the tile factory in 2002 under name of Ekbatan started operating in the stone industry . Davari's holding after 15 years, it has built its second factory for the specialized production of slab stone . With the experience we have gained during the last 19 years in the field of stone production in slab and tile sizes, we were able to process the stones to the level of the world standards and export them to more than 15 countries around the world. Davari's holding has participated in the 2018 and 2019 exhibition of Verna stone in Italy, and also in 2019 in Izmir, Turkey and has been able to achieve acceptable success in this regard . Davari's holding in 1400 with a different approach, several years of experience, having specialized personnel and updated machines, has tried to expand its activities in the field of mining and production of stone blocks from Lashotor mining has done . Now our team puts customer satisfaction first, has always tried to be the best of its kind and meet all expectations at the most reasonable price. We have the ability to supply all kinds of Iranian stones in the form of blocks, slabs and tiles in any size you request with a variety of products such as polishing, leather, sandblast, Tumbler and Bushmehr in thickness of 2 to 4 cm .
